

CONTENTS

Effects of Different Dissolved Oxygen Conditions on Phosphorus Release from Sediment of Pengxi River.....	1
Zenghui Song	1
Physical Stability Determines the Size and Species Succession of Harmful Algal Blooms:	
A Study in the Three Gorges Reservoir	2
Xuexing Yao.....	2
Analysis of the Influence of Yangtze Backwater on Bloom Occurrence and	
Organic Matter Deposition in Pengxi River, Three Gorges Reservoir, China.....	3
Guanglang Yang	3
Double H-bonds Multimer Absorbent Design for H₂S Absorption.....	4
Peng-Ju Liang, Qi-Xiang Wu, Chun-Ran Chang, Guang-Wen Chu, Hai-Kui Zou,	
Bao-Chang Sun, Jian-Feng Chen	4
Analysis of Turbidity-Island Effect Under the Background of Urban Climate: A Case of Suzhou	5
Yan He, Chengying Zhu, Shuya Cao, Peifeng Shen, Jiahao Lu, Yue Wu, Rui Li	5
Screening of Acid Resistant Photosynthetic Bacteria and Optimization of Hydrogen Production Conditions.....	6
An Dan, Hai Ri-guli	6
Evaluation of Landslide Susceptibility in the Chinese Loess Plateau Based on	
IV-RF and IV-CNN Coupling Models	7
Kong Jiaxu, Mu Jiaqi, Wang Jie.....	7
Full-Scale Operation of an Integrated Aerated Biofilter–Denitrification	
Shallow Biofilter System for Treating Low-Carbon Domestic Sewage	8
Zhuwu Jiang, Zhongjian Zheng, Mengfan Wu, Yang Qu, Chaoqun Zheng, Jyunhong Shen.....	8
Planning and Design of Green Elderly Care Communities Based on the Concept of Full Age	9
Kaiwen Guo, Xingji Chen, Shiping Guo, Hairuo Wang	9
The Spatial Function and Influence of Weiyang Palace in the Construction of Han Chang'an City	10
Yao Cheng	10
